

FELINE BETTER

Preventative healthcare is crucial in allowing cats to live long and happy lives. Nothing is more upsetting than seeing a cat suffering from a disease or illness that could have been avoided.

We understand that your cat is an individual, and we pride ourselves in always providing the most effective and suitable preventative healthcare treatment and advice, depending on each cat's lifestyle, age and current health status.

We have created a range of unique packages to save you money and help spread the costs of your cat's annual preventative healthcare over the year, such as vaccinations and prescription worm and flea treatments.

As well as helping you to budget for routine costs, the packages also give you access to unique discounts at the clinic, including money off food, toys, oral care products and Feliway items for your cat (please see overleaf for a full list of discounts).

Payment for your cat's package can be made by a number of methods:

- A yearly one off payment
- A quarterly payment by debit/credit card or direct debit
- A monthly payment by direct debit

If you are interested in a package for your cat, and would like more information, please feel free to contact the Clinic Team or take a look at our website.

Our preventative healthcare packages are not designed to replace your cat's insurance policy. The package is an excellent compliment to pet insurance for illness or injury.
